

REMARKS

The Examiner states that the present application fails to comply with the requirements of 37 C.F.R. 1.821 through 1.825 regarding the submission of nucleotide and/or amino acid sequences. Specifically, Table 1 on page 16 of the application contains an amino acid sequence not present in the sequence listing. Accordingly, applicants submit herewith a new sequence listing adding SEQ ID NO:9 from Table 1. Additionally, amendments to the specification adding the sequence identifier to the relevant description are provided.

Finally, applicants have amended the instant specification to replace the previous sequence listing with a sequence listing text file, 210121_579USPC_SEQUENCE_LISTING.txt, in lieu of a paper copy. The application has been amended to include the STATEMENT REGARDING SEQUENCE LISTING paragraph.

The sequence listing submitted herewith and above amendments include no new matter that goes beyond the original application as filed. Applicant respectfully submits that the above-identified application is now in compliance with 37 C.F.R. §§ 1.821-1.825 and WIPO Standard 25.

The Director is authorized to charge any additional fees due by way of this Amendment, or credit any overpayment, to our Deposit Account No. 19-1090.

Respectfully submitted,

SEED Intellectual Property Law Group PLLC
